ABDULAZIZKHAN KARIMBAYEV

Backend Developer

I have been in the world of programming since 2021 due to my interest in technology. In 2022, I graduated Backend course in the iSystem IT Academy and because of my aspirations, with the permission of Allah, I started an internship as a backend developer at iSystem. Aiming to leverage my abilities to successfully fill the Backend Developer role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

EXPERIENCE

2022, Jan - present
iSystem IT academy. Tashkent

Backend Developer
A Quran application program is being developed to read the Quran, its translation and description while listening to various recitations. Technologies used in the backend:
